

Chromatography in Process Development and Production - Practical Workshop & Theory -

May 3 - 5, 2011

The objectives

- To provide a comprehensive background to Bioprocess Chromatographic Purification as an integrated process technique
- To examine how process method development translates into a productive and cost effective manufacturing process
- To explore internal communication and responsibility, together with the impact of external regulatory demands on modern biopharmaceutical manufacturing
- To provide a balance of effective presentations and practical hands-on experience with process scale and method development under the guidance of qualified tutors.

Who should attend?

Bioprocess Project Managers, Bioprocess Development Scientists, Process Engineers, and all persons interested in Downstream Processing

Venue

Theory: Hotel Pullman Stuttgart Fontana, Stuttgart
Practical: Institut for Technical Biochemistry,
Workshop: University of Stuttgart

Language: English

Please be sure to register early as places on this course are strictly limited!

Deadline for registration is March 25, 2011.

The workshop fee of EUR 1,585.00 plus 19% V.A.T. (incl. V.A.T. EUR 1,886.15) includes full workshop documentation, coffee breaks, lunches, one course dinner plus a small excursion.

Organiser:
Tosoh Bioscience GmbH, Zettachring 6, 70567 Stuttgart, Germany
