

# Continuous Chromatography: Operation - Implementation - Outlook One-day Training Course Program

July 20. 2023

Thursday  
20.07.2023

## Talks / Practical Training

**Start 9 a.m.**

**Welcome - Introduction - Expectations**

### **Theory I:**

From batch to continuous

Implementation of multi-column chromatography (MCC)

### **Pratise Part I:**

Process transfer – batch zu MCC

Method writing in MCC

Purification of monoclonal antibodies via MCC

### **Lunch**

### **Practise Part II:**

Analysis of the MCC experiment

Data evaluation

### **Theory II:**

Method optimization

Economic modelling

Potential and trends of continuous methods

### **Summary & Discussion**

Ende 5:00 p.m.

**#ChromatographyExperts**
